ABSTRACT

The current wig trend has expanded the creative and lucrative field of cosmetology. This Quinmester enriches the student's training and prepares him/her for every phase of wigology. The course material is presented to the student in 135 hours of classroom laboratory instruction and is divided into eight blocks of instruction (wig and hairpieces, types of wigs, fitting wigs, wig shaping and coloring, wig cleaning and conditioning, styling wigs, hairpieces, development of manipulative skills, and Quinmester posttests). A prerequisite to be completed is a course on Complexion Care. The document also includes course goals, and outline of the specific block objectives, a course outline, and a 15-item bibliography. An appendix of Quinmester posttests is included. (Author/BP)

Course Description

9207 48 9325.00 Wigology
State Category County Dept. County Course Title
Number Number Number

Developing skills that were learned in the preceding quins, the student will work on each other, mannequins and natrons in a shop like atmosphere. The student will also acquire knowledge of the different types of wig construction and learn how to measure, shape and style all wigs and hair-pieces. This is a three quinmester credit course.

Prior to entry into this course, the vocational student will display mastery of the skills indicated in "Complexion Care". (9207.02)

Clock Hours 135

The following pages contain a course outline entitled Wigology. This is the third quinmester course of the year and is presented to the student in 135 hours of classroom-laboratory instruction.

The current wig trend has expanded the creative and lucrative field of Cosmetology. This quinmester enriches the student's training and prepares her for every phase of Wigology.

This course material is presented to the student in 135 hours of classroom-laboratory instruction and is divided into 8 blocks of instruction which are further broken down into a number of units. Upon completion of the quin, the student will have acquired a knowledge of the different types of wig construction and will have learned how to measure, shape and style all wigs and hairpieces. Further development of these skills will be maintained throughout each quin. The student will perform these skills in a shop-like atmosphere on other students and patrons.

The teaching methods may vary according to the individual ability of the student. The subject matter dictates what teaching techniques will be utilized with each student in a particular situation. The instructor uses demonstrations and lectures which are supplemented by the performance of laboratory experiments and assignments by the students. A basic text-book and student laboratory manual are used throughout the course. The instruction is further augmented by the use of films, filmstrips, charts and other aids which make the lessons more meaningful.

The bibliography, which makes up the last pages of the outline, lists the basic and supplementary reference texts and films.

This outline was developed through the cooperative efforts of the instructional and supervisory personnel, the Quinmester Advisory Committee

and the Vocational Curriculum Materials Service and has been approved by the Dade County Vocational Curriculum Committee.

GOALS

The student cosmetologist will be able to:

- 1. List the principles of Wigology by successfully completing written tests.
- 2. Discuss the history of wigs and hairpieces, explaining their importance and popularity today.
- 3. Explain the characteristics of different types of wigs, their advantages and disadvantages.
- 4. Exhibit the ability to properly measure and fit a wig.
- 5. Demonstrate the procedure in shaping a wig.
- 6. Demonstrate the ability to color and set wirs and hairpieces.
- 7. Explain the need for wig cleaning and conditioning human hair and synthetic wigs and hairpieces.
- 8. Develop skill in performing the manipulative techniques required in the practice of cosmetology.
- 9. Satisfactorily complete the most test.

SPECIFIC BLOCK OBJECTIVES

BLOCK I - WIGS AND HAIRPIECES

The student will be able to:

- 1. Write the history of wigs and hairpieces and satisfactorily complete written tests.
- 2. List the three principal reasons for wearing wigs.
- 3. Demonstrate the use of specific implements and supplies used in Wigology.

BLOCK II - TYPES OF WIGS

The student will be able to:

- 1. Explain orally the different quality or wirs.
- 2. List the different types of wirs.
- 3. Discuss the advantages and disadvantages of each type of wig.

BLOCK III - FITTING WIGS

The student will be able to:

- 1. Demonstrate on a model the proper procedure used in measuring for a wir.
- 2. Write the specific information necessary for ordering a wig.
- 3. Adjust a wig on a wig block according to size.
- 4. Fit and place a wig properly on a model.

BLOCK IV - WIG SHAPING AND COLORING

The student will be able to:

- 1. Demonstrate the ability of shaping and cutting a wir on a wir block.
- 2. Demonstrate the procedure for tinting by coloring a wig on a wig block.
- 3. Demonstrate the application of a color rinse on a wig.

BLOCK V - WIG CLEANING AND CONDITIONING

The student will be able to:

- 1. Explain orally the different types of wir cleaners.
- 2. Demonstrate on a wis the various cleaning procedures.
- 3. Exhibit the ability to condition wiss and hairpieces on a wig block.
- 4. Explain orally the safety precautions used in Wigology.
- 5. Clean a synthetic wir and hairpiece.

BLOCK VI - STYLING WIGS

The student will be able to:

- 1. List the implements used in styling wirs.
- 2. Demonstrate the setting and combing of wirs on a wir and wir block.

BLOCK VII - HAIRPIECES

The student will be able to:

- 1. List the various types of hairpieces.
- 2. Explain orally the purpose of each type of hairpiece.

BLOCK VIII - DEVELOPMENT OF MANIPULATIVE SKILLS

The student will be able to:

- 1. Complete satisfactorily on a model all pattern sets required in hairstyling.
- 2. Demonstrate on a model hair shaping techniques.
- 3. Demonstrate on a model color procedures.
- 4. Apply on a model make-up after performing facial procedures.
- 5. Perform on a model a manicure accompanied with hand and arm massage.
- 6. Perform on a model all permanent waving techniques.

BLOCK IX - QUINTESTER POST TEST

The student will be able to:

1. Satisfactorily complete the quinmester post-test.

Course Outline

COSMETOLOGY 2 - 9207 (Wigology)

Department 48 - Quin 9207.03

I. WIGS AND HAIRPIECES

- A. The History of Wigs and Hairpieces
 - 1. Definition of wigs and hairpieces
 - 2. Ancient times
 - 3. Modern times
- B. Purpose of Wearing Wigs
 - 1. Necessity
 - 2. Fashion
 - 3. Practicality
- C. Implements and Supplies Used in Wigology
 - 1. Block
 - 2. Stand
 - 3. T-pins

II. TYPES OF WIGS

- A. Quality of Wirs
 - 1. Human hair
 - 2. Synthetic hair
 - 3. Mixture of human and synthetic hair
- B. Types of Wigs
 - 1. Hand made
 - 2. Machine made
 - 3. Combination hand made and machine made
- C. Advantages and Disadvantages of Each Type
 - 1. Hand made
 - 2. Machine made
 - 3. Combination hand made and machine made

III. FITTING WIGS

- A. Wig Measurements
 - 1. Procedure for wir measurement
 - 2. Areas to be measured
- B. Ordering a Wig
 - 1. Written order
 - 2. Specifications

- B. Wig Settings and Comb-outs
 - 1. Styling procedure for wigs
 - a. Placement of pin curls
 - b. Use of safe drying techniques
 - c. Comb-out of a wig
 - d. Correct placement of a wig on a model's head
 - 2. Safety precautions

VII. HAIRPIECES

- A. Types of Hairpieces
 - 1. Switches
 - 2. Wiglets
 - 3. Bandeaus
- B. Purpose of Hairpieces
 - 1. Special styling effects
 - 2. Fullness
 - 3. Height
- C. Styling Procedures
 - 1. Setting procedures
 - 2. Drying techniques
 - 3. Comb-out procedure
 - 4. Comb-out on patron
 - a. Securing wiglet
 - b. Blending with hair

VIII. DEVELOPMENT OF MANIPULATIVE SKILLS

- A. Hairstyling
- B. Hair Shaping
- C. Manicuring and Pedicuring
- D. Facials
- E. Hair and Scalp Conditioning
- F. Hair Coloring
- G. Hair Relaxing
- H. Permanent Waving

		Wigology
True	or False	<u>2</u>
1.		_ Wigs and hairpieces should be brushed with a downward movement.
2.		_ Avoid smoking while cleaning a hairpiece.
3.		A wig can not be adjusted to fit a patron's head.
4.		No special precautions are used when cutting a wig.
5.		Human hair wigs should always be dry cleaned.
6.		Two types of wigs are machine made and weft made.
7.		Human hair burns slowly and gives off a strong odor resembling
8.		burnt chicken feathers. One important measurement in ordering a wig is around the head.
9.		You should never recondition a wiglet.
10.		Wigs should be cleaned in metallic bowls.
11.		Synthetic wigs have a glassy, surface shine.
12.		Always rub a wig to insure thorough cleaning.
13.		For a finished style, a wig should be adjusted and combed to
14.		suit the patron's face. Custom made wigs are less expensive than machine made wigs.
15.		To securely anchor a wig, set a flat row of pin curls across the
16.		nape. A wig whose net cap is sewn in circular rows is called a weft wig.
17.		Before a tint application, a wig is parted in four sections.
18.		A wig block is protected with a cloth towel.
19.		Wigs should be cleaned in a closed area.
20.		Hairpieces can be dressed for daytime or evening wear.
21.		For proper fit the wig cap should cover the ears.
22.		Better quality wigs have a fine, mesh foundation.

23.	Animal fibers are sometimes used to construct wigs.
24.	When rinsing out a tint a wig should remain on the block.
25.	A Florida Cosmetology license is required for wig styling
